A special motif is any individual design created by the customer, which is different from the Crystal-it & Crystal Tattoos Standard or Trend Collections. This service opens up many customisation possibilities and enables you to profit from Swarovski's longtime experience and design expertise. A range of customisation options for existing motives is available (see "Customisation Possibilities" below). You may also submit sketches of a design that will suit your special needs – such as a brand image or an image to suit a particular sales campaign. This will then be made up according to your specifications using Computer Aided Design which allows for easy adjustments according to your needs.

## Customisation Possibilities

&lt;&lt;&lt;

- Change of elements of an existing motif
- Change of size of an existing motif
- Logos or brand names
- Up to three colours with two elements (S6T, S10T) possible per Crystal-it / Crystal Tattoo motif

## Ordering Process

&lt;&lt;&lt;

Send the request with a drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements to the desired motif. Please also indicate, which product group your special motif refers to (Crystal-it, Crystal Tattoos, Transfers, Crystal Mesh etc.). You will then receive a quotation including your article number, minimum order quantity, price and the line drawing of your special motif in PDF format. Please contact your Swarovski sales office again if any changes need to be made. Your special motif will be produced and delivered following your confirmation.

## Please Note

&lt;&lt;&lt;

Please always submit your drawing of the desired motif to represent it in the actual size you require. A small sketch, when enlarged to the desired size, will have blurred lines that will make it difficult to correctly reinterpret. Pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP or DXF format will ensure that we have clear data to work with. These can also be sent via email or on a CD-ROM. If sending a sewing pattern, please include the whole pattern and not just cut outs. When the sketch is submitted as a hard copy by fax or e-mail, please include a scale legend (e.g. copy/scan with ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

Special productions are generally offered to all our customers if feasibility is given and our General Terms and Conditions are applied. Please note that the simple order of a design does not grant exclusive production of this design to the customer.

### WARNING FOR CRYSTAL TATTOOS

Crystal Tattoos may be applied on healthy skin only. Do not adhere to eyes or on mucous membranes. Crystal Tattoos are not recommended for young children. Loose crystals may present a small parts hazard to young children, particularly children under three years old. If a crystal comes loose, depending on the size of the crystal, children may choke on, inhale, swallow or insert the crystal into the nose.
